Dos Coronas

The Red Letter Band is a chart-topping group of artists that enjoy entertaining audiences in an up-close, personal way. They cover a variety of classic country hits and have prize giveaways for crowd participation. In 2014, their debut single, "Bring Me" climbed to #2 on the Inspirational Country Music (ICM) charts out of Nashville. The Band's second release "All Abandoned" quickly followed suit also reaching a #2 spot on the January 2015 charts. Later in 2015, "Love Will Stay" hit the top 10 earning The Red Letter Band a nomination for 2015 ICM Band of the Year.

The Amazing Hoopsters a family of six from Hutchinson, MN performs spectacular hooping tricks choreographed to an artistic hoop dance performance. Hooping performers Rachael, Tyler, Kristina, and Courtney started basic hooping at the age of 4, while honing their skills throughout their years of practice. They have advanced their ability to effortlessly maneuver the multiple hoops throughout their bodies and fluently shift the hoops into a variety of designs.

Donny Brang is an acoustic guitarist and vocalist from Central Minnesota and has decades of LIVE performing experience. Starting at a very young age, he had the opportunity to appreciate and learn many genres of music. He performs a wide variety of great songs from yesteryear to today for all ages to enjoy. His approach to REAL LIVE solo performing is based on his bare-bones, from the heart style without the use of any recorded or pre-processed effects...simply REAL MUSIC being played by a REAL MUSICIAN on a REAL INSTRUMENT.

Thank you again for participating in our fair and helping to make it such a great success.

removed from the exhibition premises. They may not enter a show ring. This includes livestock with warts or ringworm or abscess. A statement from a veterinarian that an animal is being treated for these diseases is not acceptable.

- All testing must be conducted prior to the exhibition and a record of the test results on a test chart or Intrastate Health Certificate must accompany the tested animals.
- Poultry test results or origin must be on official forms.

Cattle: The Minnesota Board of Animal Health is requiring that ALL cattle being exhibited be identified with an "official" form of ID. This is a new expectation brought about by the TB outbreak Minnesota experienced a few years back. This system is designed to track the basic premise or origin of a said animal. The official information for these expectations can be viewed at the following website: <http://mn.gov/bah/cattle.html>

This will take you to the Board of Animal Health Website – the page is entitled "Exhibition of Livestock in Minnesota." Next, click on Cattle Show. This click will bring up a pop-up that says "Cattle must be officially identified." Click on cattle identified. This will bring up a fact sheet titled "Official Identification for Cattle and Bison." It includes pictures and supporting wording indicating the kinds of ID's that are acceptable for the Board of Animal Health ID expectations. They will be in place for all cattle that will move from one site to another, such as to the county or state fair.

Goats, Sheep: Sheep and goats must have an official Scrapie ID or have a registered tattoo along with a breed registry number. No sheep or goat that is within 30 days of giving birth may be exhibited without prior approval from the Board.

Swine: Swine must be officially identified and must:

- have had a negative official pseudorabies test conducted within 30 days prior to the opening date of the exhibitions; or
- originate directly from a qualified pseudorabies - negative herd; or
- originate directly from a Stage IV or V county or area. All 50 states are currently pseudorabies Stage V (Pseudorabies Free Status).

Horses: All horses must be negative to an official test for Equine Infectious Anemia (EIA) within 12 months prior to the opening date of the exhibition. A test is not required for sucking foals accompanying a negative dam. Note: 4-H also requires a negative Coggins test.

Poultry: (except waterfowl and pigeons): animal must be individually identified with a leg or wing band and must be accompanied by a form approved by the Fair Board to show compliance with one of the following: negative test for pullorum-typhoid disease conducted within 90 days prior to the opening date of the exhibition; originate directly from a hatchery or breeding flock that is classified negative for pullorum-typhoid disease within the last 12 months. In addition, turkeys must be accompanied by a certificate or test chart to show that they originate from a hatchery or breeding flock that is classified Mycoplasma gallisepticum clean and Mycoplasma synoviae clean or are negative to a Mycoplasma gallisepticum clean and a Mycoplasma synoviae test within 90 days prior to the opening date of the exhibition.

Rabbits: Rabbits will be checked upon arrival for snuffles, ear mites, and general health. Rabbits found with any of the above health concerns will be sent home.

Subaru Loves to Help®

Our Subaru Love Promise™

Subaru and our retailers believe in making the world a better place and the Subaru Love Promise is our vision of respecting all people. This is our commitment to show love and respect to our customers and to work to make a positive impact in the world.

Our Promise

In an ideal world, hunger would be a thing of the past and hope would be a universal norm. We hold the belief that a perfect world is achievable.

In the year 2020, Subaru and its retailers joined forces to make a generous donation to Feeding America. This contribution helped provide a staggering 50 million meals to support individuals and families facing food insecurity during the challenging times of the COVID-19 crisis. These meals were made available through 199 local food banks across the nation, with each dollar donated resulting in at least 10 meals secured by Feeding America on behalf of their member food banks.
