*The Red Letter Band* is a chart-topping group of artists that enjoy entertaining audiences in an up-close, personal way. They cover a variety of classic country hits and have prize giveaways for crowd participation. In 2014, their debut single, "Bring Me" climbed to #2 on the Inspirational Country Music (ICM) charts out of Nashville. The Band's second release "All Abandoned" quickly followed suit also reaching a #2 spot on the January 2015 charts. Later in 2015, "Love Will Stay" hit the top 10 earning The Red Letter Band a nomination for 2015 ICM Band of the Year.

*The Amazing Hoopsters* a family of six from Hutchinson, MN performs spectacular hooping tricks choreographed to an artistic hoop dance performance. Hooping performers Rachael, Tyler, Kristina, and Courtney started basic hooping at the age of 4, while honing their skills throughout their years of practice. They have advanced their ability to effortlessly maneuver the multiple hoops throughout their bodies and fluently shift the hoops into a variety of designs.

*Donny Brang* is an acoustic guitarist and vocalist from Central Minnesota and has decades of LIVE performing experience. Starting at a very young age, he had the opportunity to appreciate and learn many genres of music. He performs a wide variety of great songs from yesteryear to today for all ages to enjoy. His approach to REAL LIVE solo performing is based on his bare-bones, from the heart style without the use of any recorded or pre-processed effects...simply REAL MUSIC being played by a REAL MUSICIAN on a REAL INSTRUMENT.

## **Open Class Animal Health Requirements**

The following information can also be found on the Minnesota Board of Animal Health website.  
<http://www.mn.gov/bah/>

### **Health Requirements for Livestock and Poultry Originating from Minnesota:**

Livestock or poultry known by the exhibitor to have an infectious, communicable disease or to have been exposed to an infectious, communicable disease or to be from a quarantined herd or flock may not be entered in an exhibition.

- All livestock will be inspected by the official veterinarian on the opening date of the exhibition. The official veterinarian will order the immediate removal to a quarantine facility or removal from the exhibition premises of any livestock with symptoms of infectious or communicable disease. Animals placed in a quarantine facility must remain there until removed from the exhibition premises. They may not enter a show ring. This includes livestock with warts or ringworm or abscess. A statement from a veterinarian that an animal is being treated for these diseases is not acceptable.
- All testing must be conducted prior to the exhibition and a record of the test results on a test chart or Intrastate Health Certificate must accompany the tested animals.
- Poultry test results or origin must be on official forms.

**Cattle:** The Minnesota Board of Animal Health is requiring that ALL cattle being exhibited be identified with an "official" form of ID. This is a new expectation brought about by the TB outbreak Minnesota experienced a few years back. This system is designed to track the basic premise or origin of a said animal. The official information for these expectations can be viewed at the following website: <http://mn.gov/bah/cattle.html>

This will take you to the Board of Animal Health Website – the page is entitled "Exhibition of Livestock in Minnesota." Next, click on Cattle Show. This click will bring up a pop-up that says "Cattle must be officially identified." Click on cattle identified. This will bring up a fact sheet titled "Official Identification for Cattle and Bison." It includes pictures and supporting wording indicating the kinds of ID's that are acceptable for the Board of Animal Health ID expectations. They will be in place for all cattle that will move from one site to another, such as to the county or state fair.

**Goats, Sheep:** Sheep and goats must have an official Scrapie ID or have a registered tattoo along with a breed registry number. No sheep or goat that is within 30 days of giving birth may be exhibited without prior approval from the Board.

**Swine:** Swine must be officially identified and must:

- have had a negative official pseudorabies test conducted within 30 days prior to the opening date of the exhibitions; or
- originate directly from a qualified pseudorabies - negative herd; or
- originate directly from a Stage IV or V county or area. All 50 states are currently pseudorabies Stage V (Pseudorabies Free Status).

**Horses:** All horses must be negative to an official test for Equine Infectious Anemia (EIA) within 12 months prior to the opening date of the exhibition. A test is not required for sucking foals accompanying a negative dam. Note: 4-H also requires a negative Coggins test.
